

CAMPING SAFARIS WITH CORTO

Our Camping Safaris solution is no longer only reserved for adventurers, as it offers quite high level of comfort while allowing high mobility, especially relevant to the trekking community.

Your cook is on duty full time, and your driver / guide will be there at anytime, to help you spend a memorable time while ensuring your safety.

Equipment Supplied

- 3 Man Domed tents (used for 2 only) with mattress and cover.
- All the cooking equipment, tables, chairs and large tent for the meals
- All the food for the expedition, with fresh local produce.
- Hearty Warm meals for breakfast, lunch and dinner.

Water and Drinks

During your camping Safari, drinking water will be made from decontaminating and purifying water – thanks to tablets that **you must bring**, as they are not available here. Some camps located outside the national parks sell fresh drinks. Once inside the parks, it is also possible to stop in the evenings at lodges for refreshments should you want to.

Health

- Vaccins : Yellow Fever (international vaccination book) required for Tanzania. It is strongly advised to be up-to-date with all other vaccinations such as tetanos, typhoid, and possibly meningitis and hepatitis. Cholera vaccination is no longer required.
- Malaria : Nivaquine + Paludrine or Savarine or Malarone preferably a course to start before the departure and to continue after the return back home – following doctor's advice and drugs manufacturer's recommendations.
- Mosquitos protection: Spray, Cream, and clothes wash.
- You may get further information from the Pasteur Institute www.pasteur.fr

Currency

The Tanzanian Shilling (TZS) : 1 USD is 1300 TZS – 1 GBP is 2200 TZS is to be obtained / changed locally only. The US Dollar is advised and accepted in many locations. The Euro is also well accepted nowadays.

Take small denominations of the notes and change small amounts at a time. Make sure you take new notes or traveler's cheques. Credit Cards are accepted in banks, hotels and some shops, but you will be asked to pay an additional commission of up to 5% for this service. When this is not imposed, remember that it is probably already included in the displayed price. Bare this in mind while bargaining!

Weather

Two rainy seasons. The small rains (November and December) still allow for camping safaris and Kilimanjaro climbs. The larger South-Easterly rains (March to May) make the climb very difficult and the parks tracks very difficult. Camping during this season is not recommended. Outside these periods, daylight temperatures vary between 20 and 35°C depending on the altitude. Fresh nights (5/10°C). Very cold nights on the higher slopes.

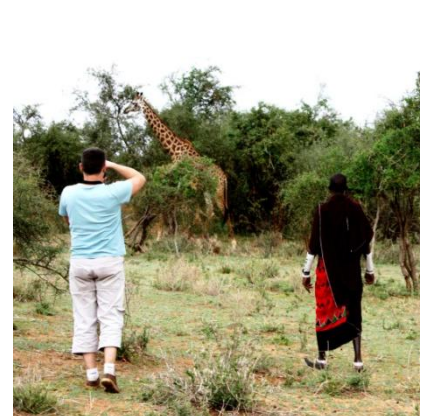

Luggage

- A large rucksack or backpack. No suitcase !
- A smaller trekking bag for your personal items (25 to 40 kg).

If you will be combining several trips, you can leave some items of luggage at our office located in Arusha. These will be kept safely until your return.

Because of airport surcharges, we advise that you take your sleeping bag, and other items of first importance as hand luggage.

Think about bringing plastic shoes (cros) for swimming and crossing waterfalls and rivers.

Photography - Vidéo

It is wiser to buy films or memory cards in sufficient quantities before your departure. Most of our cars are equipped with power sockets 220V – UK style (please check availability during the booking), which allows you to recharge your cameras and camcorders batteries. For animal photography, we recommend a 300mm lens. Dust Protection bag. Binoculars. Spare batteries.

CORTO SAFARIS wish you an Excellent trip
